your financial
starting point
that's important.
It's your trajectory.**

PERFORMANCE COACH

Dani Paim

Financial Services Certificate Level 5 - Investments & Residential Lending
Diploma in Business
Honours in Business Management

Dani found her way into the financial world early on, deciding at just 18 to follow her love for finances, her fascination for property, and her passion for coaching to help others succeed when it came to their own financial journey.

After several years working within the property world, she made the shift to coaching and joined enable.me so she could help Kiwis from all walks of life along their path to financial well-being.

Like our other coaches, Dani takes a holistic approach to her financial advice - knowing that it's not just about the numbers, but also a person's unique money personality and journey, that shapes a person's financial outcomes. After all, she says, it's not just about dollars and cents, it's about crafting a life filled with happiness and the freedom to truly live it.

What she loves most about being a financial adviser is getting the opportunity to connect with individuals from all walks of life and help them shape a brighter financial future.

WHAT DANI'S CLIENTS SAY

"Thank you, Dani. You've added so much value and with all the tips, I feel like I've taken several steps forward towards achieving my goal. No doubt it's just the start of an awesome connection."
