

PERFORMANCE COACH

Karyn Grindlay

Financial Adviser

Bachelor of Commerce – Accounting & Finance

Post-Graduate Diploma in Commerce – Finance

WHAT KARYN'S CLIENTS SAY

“Karyn was friendly, informative, knowledgeable and motivating.”

“Karen really listens and absorbs what we are saying. She is well prepared with action points to talk over/provide advice. Also really empathetic and nonjudgmental.”

“Karyn was friendly and used language that was relatable and easy to understand.”

Karyn combines an impressive financial pedigree with a skill for simplifying financial jargon and a passion for helping people succeed.

A career that's traversed the big banks and business consulting means she has intimate knowledge of lending structures, knows her way around a balance sheet, and is skilled in helping clients manage their cashflow.

Her banking experience has shown her that the size of your income is not the key determinant of who gets ahead, and who ends up with lots of toys but also lots of debt. Working as a financial coach is her dream role because she's now able to channel her expertise towards helping clients get ahead.

With a friendly, calm, and caring disposition, Karyn makes sure her clients feel heard, and builds long-term relationships so she can walk beside them on the journey to a better financial future.
